Mr. Robert Coward, of Pittsburg, Penn., has reluctantly come to the conclusion that he and his brother are the lawful heirs to an estate in England valued at \$250,000,000 in gold. "What a fabulous sum to contemthat is probably just the word.

CAN A MAN SWIM IN OIL ?- This question was practically solved the other day, by a workman employed in an oil manufactory of Nice, who fell into a tank of olive oil nine he went to the bottom like a plummet, and was only saved from drowning by the timely aid of a comrade. Oil is too light to swin in; it is not sufficiently buoyant, and does not offer the resistance necessary to keep a The Louisville Commercial says that, as

a general rule, the colored people of that city are steadily advancing. One year ago there were only 547 of them, depositors in the savings bank. Now there are 1,220 deposi-The Only Good Sauce! tors. The richest colored man in the city is worth \$50,000 or \$60,000, but there are many who, within a few years, have secured houses and lots that are now worth several thousand dollars each. The colored people have altogether fourteen churches, whose membership is estimated at 4,200. They and one literary society with a large membership, while another has just been started. There are over twenty secret benevolent societies most of which have grown out of

> To PRESERVE STEEL GOODS FROM RUSTING. -The simplest way of preventing the oxidation of polished iron and steel goods is to dust them over with quick lime. When articles are required to be preserved for many months (such as polished steel grates), strips of paper freely covered with powdered lime are to be wrapped around the bars; or they may be placed in cases, and interstices filled up with quick lime. Pianoforte wires and small goods are preserved in the same way. The rationale of the method is this-steel will not oxidize in dry air, and thus indirectly the line preserves steel from rust. This is not a new plan, but it is the method adopted by the majority of the Birmingham houses.

HAVANA, June 5 .- The Captain-General telegraphs that the fillibustering expedition from New York on the steamer Upton disembarked at Puerto Brava, a few miles east of Neuvitas, and was attacked by the Spaniards, 100 strong, assisted by two gunboats, and dispersed, losing ten killed, including Capt, Harrison. Two were drowned and three taken prisoners. A steam launch, rubber rafts and the entire cargo of arms, ammunition and medicine which had been landed, were captured. with some correspondence.

The Spanish naval commander telegraphs that the munitions captured consist of two tons of powder, over 100,000 cartridges and 1,800 rifles. Cismaros, who commanded the expedition, had sailed on the Upton, with the balance of the cargo, for Colombia, to bring back the expedition of 200 Co

The Voz de Cuba says that six tons of powder, 2,000 rifles, and the entire materials of the expedition fell into the hands of the Spanish troops, and several prisoners were immediately executed. The date of the landing is not stated.

New York, June 7.—The British Consul at Hav-

ana, has received a telegram that the armed steamer Chieftain left London ostensibly for Japan, but really to assist the Cubans. Advices from the Cuban Junta say that on the 28th ult., the battalion San Quenton started in combination with two gunboats to capture the Upton expedition, which was safely landed five

The N. Y. Times special says, Gen. Jordan, the Cuban insurgent commander, has returned here. He reports that he finds a general disposition among Senators and members of both parties to among Senators and members of both parties to vote for banks' neutrality resolution, which will allow the Cubans equal facility with the Spaniards to buy arms, gunboats, etc., which Jordan feels confident will insure the success of the cause. The premature publication of Banks' report furnished PURVEYORS TO THE QUEEN, THE EMPEROR OF THE the Spanish Minister here with information in advance, thus enabling him to telegraph to Madrid and Havana just what action the Committee propose to take. The State Department has learned that of all the Cuban privateers, the Upton alone got to sea without war material on board, and ould not therefore have been lawfully detained. The Spanish Minister says that at sea she was supplied with arms and munitions generally for the

Cuban cause. CHICAGO, June 5 .- Potter Palmer announces that he wijl commence. July 1st, the erection of an immense hotel, bearing his name, on the corner of State and Monroe streets, eight stories high, containing 75 rooms. It will cost \$2,500,000. The architecture will be very elaborate, similar to the Louvre Palace, built by Louis Phillipe, and it will surpass in style and elegance, any hotel yet built, either in this country or in Europe.

Bergen, Germany, has a papier mache church which will hold 1,000 people

How to Keep the Sabbath. Henry Ward Beecher's Sermon, May 29. the best room in it. It is a day to be looked up to Polands.—There are (at least) five varieties of the voyage would be made in even less time than pleasant; made pleasant by a higher manhood, by the enjoyment of Christian joys. It is to the ay of the week which is to act on our higher nature. It should therefore, carry this feeling of joyfulness in a man's nature. The whole truth of the prophet's words are, then, that you shall so enjoy the Sabbath, that your higher nature shall say it is a delight and honorable. As the cooper would never think of working at his barrel while ntertaining company at his honse, so the Sabbath is to be kept separate from the rest of the week. Keep your shavings and your dirt out of the Lord's day. It is not then to be a working day. I am not superstitious on this subject. I don't think that if a man, walking in his garden on the Sabbath, should see a weed and pull it up, it would be marked down against him on the Lord's book. I regard it as a day in the week when a man can say, I am not a clerk, am not an apprentice; I am not to crouch to any one to-day, I am a man. A man stands on his manhood that day. Wherefore, I say that Sunday should not be a working day, because it must be unlike other days. Sunday is the poor man's, it is your day, it is my day, it is liberty day. It is not to be a visiting day. I am not superstitious about this either, I believe that the question is not, can I, or can I not visit? not to be asked even to go to dinner, from an the 12th. over-scrupulousness on the part of their parishion- The band took their places, and the procession ers, who were afraid of breaking the holy day. breed, light and dark. The light are chiefly white in the color of their plumage. The dark have (mainly) dark colored feathers, slightly and evenly tipped with white.

mencing at six months old; sometimes laying and were known to be a very dangerous cage of forty eggs before any manifestation of a desire to animals. Every attention is being given to the set, and in the year will produce a satisfactory sufferers by the kind and hospitable citizens of number of the largest sized eggs.

Middletown, and at last accounts they were all The dark variety is the largest-cocks of this pronounced out of danger.

kind weighing sometimes fifteen pounds; thirteen and fourteen being quite common weights. They are hardy, quiet, grow fast, and, taking all in all, are a first-class bird for either eggs or the

Cochins .- The three principal colors of the Cochins are white, buff and partridge color-the two former the most popular. The white should be all white, and the buff any shade of buff, but of no other color. They are a large bird-cocks weighing ten or twelve pounds. The shanks are feathered down to the toes, and the legs are

generally short and widely set apart. The Cochins are fair layers, but they are exceptionable setters, always wanting to experiment in that line after every dozen eggs, and are with the greatest difficulty induced to delay a three weeks' incubation. They are a good breed for family use, and will lay a fair amount of eggs and will hatch as many chickens as any other kind in the same time; but the chickens need to be eaten young to be the most unexceptionable to the taste. They can be kept in a small space, bear absolute confinement better than most other breeds, and are better for winter layers

summer. CREVE COURS .- The plumage of this fine French variety is mostly black, and they are distinguished from all other breeds by a comb which takes the form of two well developed borns, the whole surmounted by a black crest. They are quite large, weighing from seven to ten pounds. The quality of meat is said by French writers to be among the best. They mature early; they do well in the closest confinement; lay a fair quantity of the largest sized eggs; are averse to setting; and are a desirable variety wherewith to stock a contract, so far as their capacity to carry it out

The Australian Steam Route.

It is now pretty nearly certain that there will be but two real competitors for the United States and Colonial subsidies, namely: The North Pacific Transportation Company and Wm. H. Webb, of New York. The capacity of either of these competitors to carry out such a contract is undoubted. The North Pacific Transportation Company are now represented by Mr. H. H. Hall in the Colonies. That gentleman, we understand, has full power to negotiate on behalf of perishable in any climate. the Company. That being so, Mr. Hall, upon his return, would be in a very much better position to carry out such an undertaking than he ever was before. Considerable credit is given in San Francisco to Mr. Hall for the Yankee smartness with which he succeeded with the slender resources that were available to him in the Colonies in starting a line-an inferior one though it is. From him can never be taken away the credit of being the pioneer of the new route; although it must be admitted that others were at an early period moving in the matter in this country in a slower but probably a surer way. Earnest Colonists, now residents in this country, with that love for their old home, which characterizes Australians, have been principally instrumental in attracting attention here to the rising importance of the Colonies, and to the great value of the Pacific route. To their "proper representations" not a little of the credit of obtaining the favorable recognition of

contract, so far as their capacity to carry it out is concerned. If, however, the Company get it Dorkings.—There are three varieties of this breed—gray, silver gray and white—each having those they now have on this coast are not of such about the same characteristics. They weigh from eight and a half to fourteen pounds, and their qualities as a table bird are unrivalled. They has taken out ample guarantees as to the buildare not good layers except when young. 24,000 ACRES

-ON THE--

ISLAND OF LANA!!

The Ahupuaa of Kaa, FORMERLY BELONGING TO THE

prises about 20.000 Acres of superior Grass Land, having now about 3,500 Sheep running upon it, and capable of feeding at least 10 000 head, even in the present state of drouth. The land is well wooded, with large groves of small timber. There are two small bays, Awalua and Honopu, which afford convenient landings for schooners. There is a station on it with two cottages, and two pens for sheep. THE AHUPUAA OF KEALIA KAPU.

Formerly belonging to the Josua Kaeo Estate, is situated in the centre of the island, crossing the main Palawai Valley, and dividing the Government lands. Comprises about 4,000 Acres. It contains a good mountain spring, has some choice groves of timber, and has a good schooner landing. Both lands are well supplied with water for stock on the beach.

There are about 3 500 Acres in K no. and 500 tensor in K. There are about 3,500 Acres in Kan, and 500 Acres in Kealia, of rich, level, mellow soil, equal to the best in this Kingdom for the growth of Sugar Cane, and upon which superior Cane has grown, which would afford a fine opportunity to a oitalist to establish an extensive and productive Sugar Planton. Title. Fee Simple.

For further particulars, apply to WALTER M. GIBSON. Or WALKER & ALLEN,
